FIYIN AWOJOBI

Product Designer

Lagos, Nigeria • awojobifiyin@gmail.com • 0903 019 0232 • Portfolio • LinkedIn

Product Designer with 1.5+ years designing and building digital products across SaaS, AI, and consumer experiences. Focused on product thinking, UX strategy, and design systems, with hands-on experience translating designs into implementation-ready interfaces through AI-assisted workflows.

EXPERIENCE

MailMint (MVP) May 2026 – Present
Lead Product Designer

- Led design and delivery of MailMint's MVP within a 16-member cross-functional team, assigning work, reviewing deliverables, and structuring design workflows from discovery through implementation.
- Designed the UX across MailMint's core surfaces, mapping the landing page and authentication flow into a single guided entry point that simplified a technically complex AI-powered cold email platform for first-time users.
- Designed the UI across those surfaces and built a design system of 40+ reusable components spanning typography, color, and form patterns, standardizing implementation across the product.
- Documented standardized AI workflows and prompting frameworks for the team, covering DeepSeek API integration, Supabase configuration, and authentication debugging.

Purple Signatures Aug 2024 – Oct 2024
Product Designer (Freelance)

- Designed and launched Purple Signatures' first responsive website, establishing the luxury wig brand's digital presence beyond social media.
- Partnered directly with stakeholders to gather requirements and translate business goals into design decisions through iterative reviews.
- Reframed the project from a visually driven page into a user-centered experience, building out the UX, IA, design system, and responsive layouts while preserving the brand's luxury identity.

Drip (Selected Project) In Progress
Product Designer

- Designed the core product experience for an AI-powered digital wardrobe app, mapping onboarding, wardrobe, discovery, and outfit-recommendation flows.
- Defined the MVP product loop and AI outfit-generation logic, translating requirements into implementation-ready interfaces.
- Built the product end-to-end using AI-assisted development workflows, from design specification through implementation.

EDUCATION

Babcock University 2023
B.Sc. Mass Communication

Product Design Bootcamp — Dev and Design
Oct 2025 – May 2026

SKILLS

PRODUCT DESIGN

Product Strategy • UX Design • Information Architecture • Wireframing & Prototyping • Design Systems

PRODUCT DEVELOPMENT

AI-native Development • Product Documentation • Developer Handoff • Design QA

COLLABORATION

Team Leadership • Stakeholder Management • Cross-functional Collaboration

TOOLS

Figma • Framer • Antigravity • Supabase • Vercel • GitHub • ChatGPT • Claude • DeepSeek
